Final Wireframe | Initial Set Up

01. Cover page
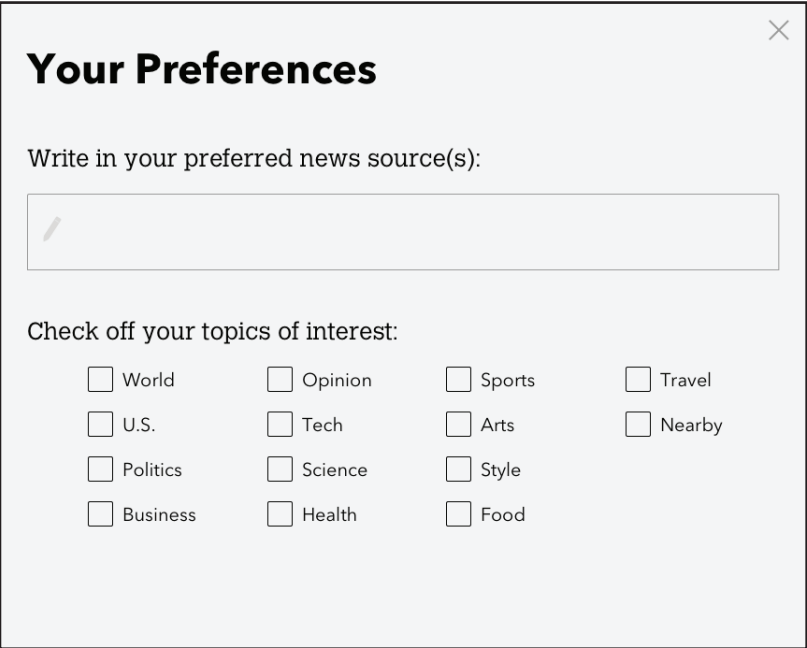

2017
news calendar

Cover page

02. Inside Cover

2017
news calendar

Second page is an inside cover.

03. Preferences

Your Preferences

Write in your preferred news source(s):

Check off your topics of interest:

- [ ] World
- [ ] U.S.
- [ ] Politics
- [ ] Business
- [ ] Opinion
- [ ] Tech
- [ ] Science
- [ ] Health
- [ ] Sports
- [ ] Arts
- [ ] Style
- [ ] Food
- [ ] Travel
- [ ] Nearby

The preferences panel will be open by default for first time users. After initial set up, users will see the standard monthly view when opening the calendar.

04. Preferences

Your Preferences

Write in your preferred news source(s):

New York

The New Yorker
New York Times

06. Month View

01
JAN 2017

| S	M	T	W	T	F	S
26	27	28	29	30	31	1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	1	2	3	4	5	6

Users can revisit their preferences any time after their initial setup by tapping the Settings button from any screen.
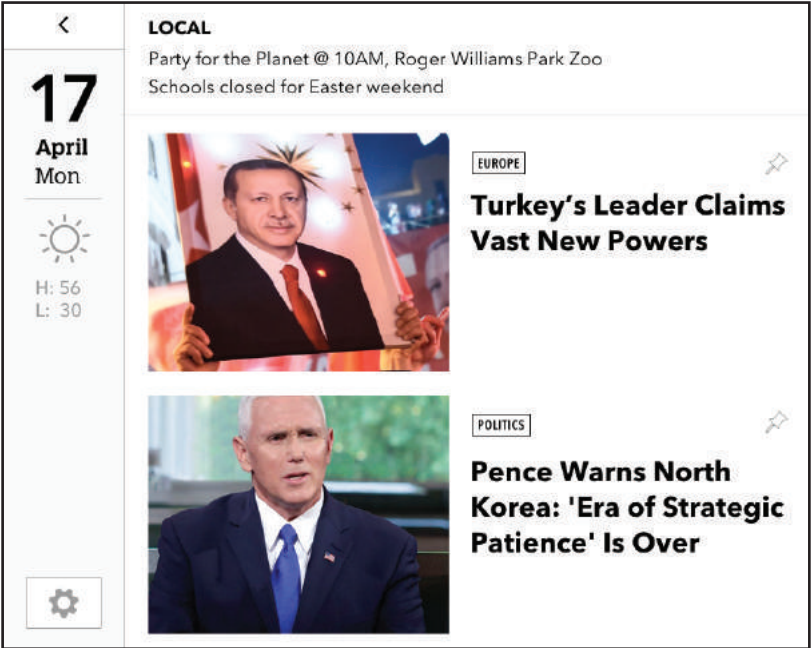

Final Wireframe | Breaking News

01. Month View

Present day will be highlighted and display the day's top headline. Previous days show faded previews of their respective top stories.
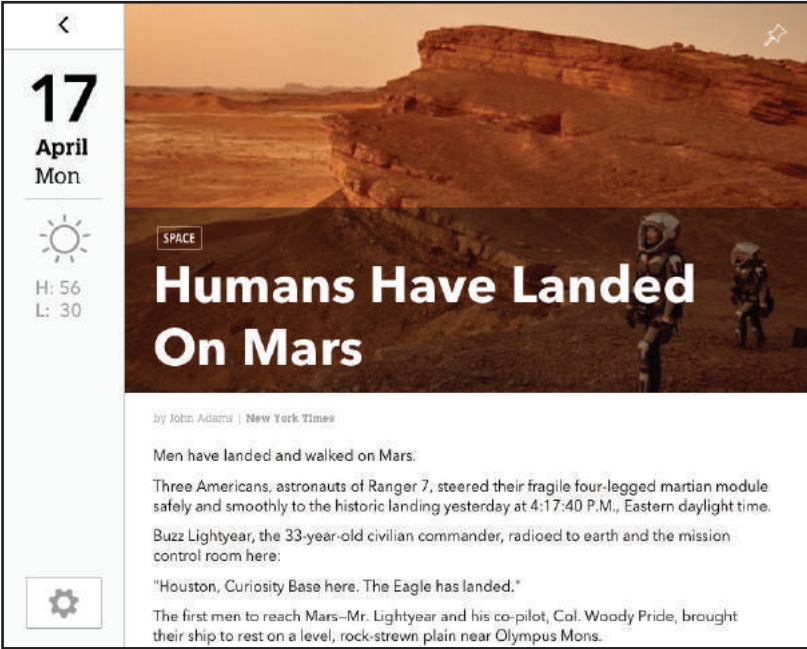

02. Day: List View

Tapping the current date leads to the Daily view, which is a list of the top five stories from the user's selected news sources. The top article will be the default preview headline when in month view.
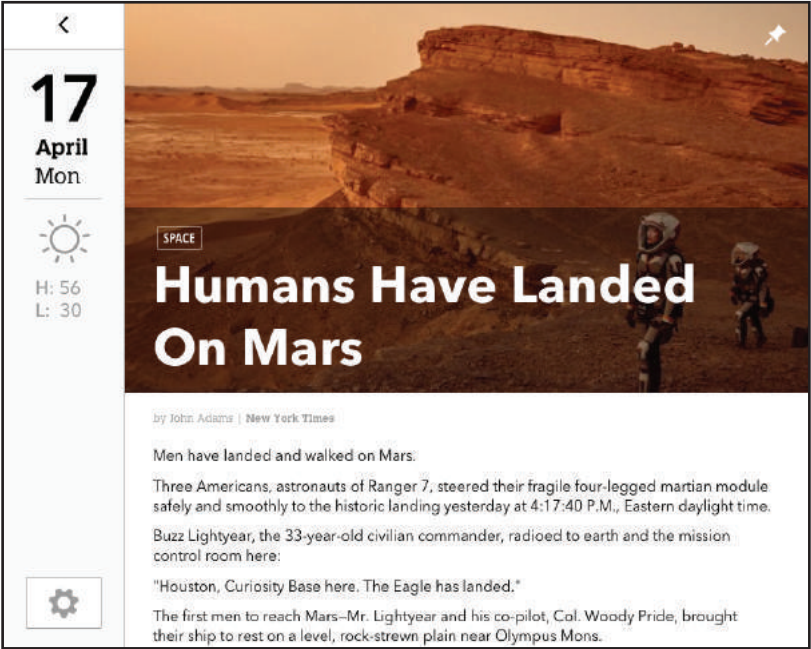

03. News Alert

Breaking news alerts can be x-ed out or opened up.
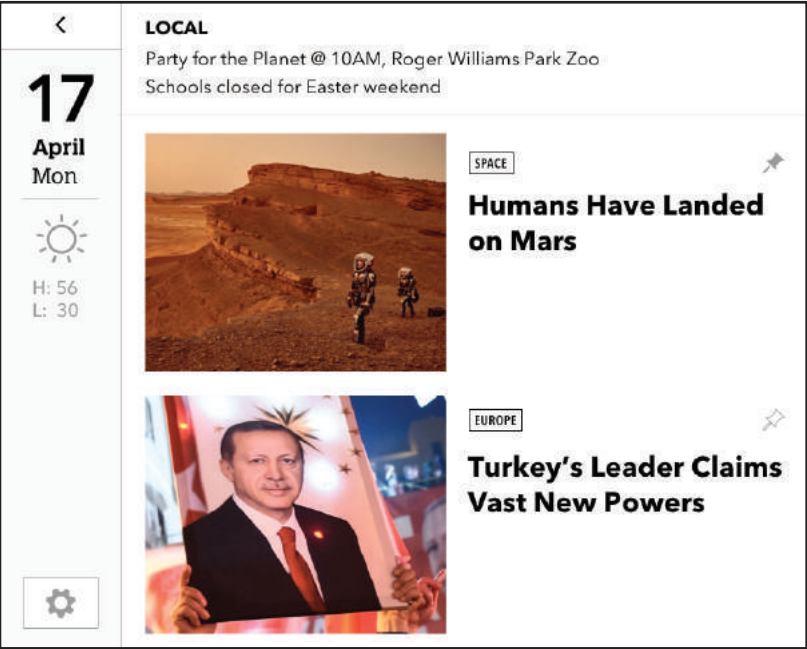

04. Article View

After finishing a story in this view, the next article auto-matically loads underneath as user scrolls down.

05. Article View: Loads with scroll

Users can pin one article per day to set it as the story of the day.

06. Return to Month View

Headlines will have updated in month view to reflect the user's pinned article, or else will default to the top headline.
